VOLUME 21
LIST OF CONTENTS

Number 1

	iii	Editorial
	v	Editorial
M-A. Sicre, R. C. Tian and A. Saliot	1	Distribution of sterols in the suspended particles of the Chang Jiang Estuary and adjacent East China Sea
M-A. Sicre, S. Peulve, A. Saliot, J. W. de Leeuw and M. Baas	11	Molecular characterization of the organic fraction of suspended matter in the surface waters and bottom nepheloid layer of the Rhone delta using analytical pyrolysis
Susumu Sakata, Yukihiro Matsuhisa and Shun-ichiro Igari	27	Organic geochemistry of petroleum from the Green Tuff basin, Japan
Neely H. Bostick and Ted A. Daws	35	Relationships between data from Rock-Eval pyrolysis and proximate, ultimate, petrographic, and physical analyses of 142 diverse U.S coal samples
Georg Guggenberger, Wolfgang Zech and Hans-Rolf Schulten	51	Formation and mobilization pathways of dissolved organic matter: evidence fro.n chemical structural studies of organic matter fractions in acid forest floor solutions
Joseph A. Curiale and Martin R. Gibling	67	Productivity control on oil shale formation—Mae Sot Basin, Thailand
A. G. Requejo	91	Maturation of petroleum source rocks—II. Quantitative changes in extractable hydrocarbon content and composition associated with hydrocarbon generation
Note		
Pim F. van Bergen, Andrew C. Scott, Patrick J. Barrie, Jan W. de Leeuw and Margaret E. Collinson	107	The chemical composition of Upper Carboniferous pteridosperm cuticles
	113	Corrigendum
	I	Announcements
	III	Forthcoming Papers

Number 2

Robert Alexander, Robert I. Kagi, Raj K. Singh and Imam B. Sosrowidjojo	115	The effect of maturity on the relative abundances of cadalene and isocadalene in sediments from the Gippsland Basin, Australia
J. L. Rudkiewicz and F. Behar	121	Influence of kerogen type and TOC content on multiphase primary migration

OG 21/12—H

J-F. Rontani, V. Grossi, R. Faure and C. Aubert — 135 — "Bound" 3-methylidene-7,11,15-trimethylhexadecan-1,2-diol: a new isoprenoid marker for the photodegradation of chlorophyll-*a* in seawater

J. R. Disnar and M. Harouna — 143 — Biological origin of tetracyclic diterpanes, *n*-alkanes and other biomarkers found in Lower Carboniferous Gondwana coals (Niger)

Shareen R. Yawanarajah and Michael A. Kruge — 153 — Lacustrine shales and oil shales from Stellarton Basin, Nova Scotia, Canada: organofacies variations and use of polyaromatic hydrocarbons as maturity indicators

R. J. Hwang, A. S. Ahmed and J. M. Moldowan — 171 — Oil composition variation and reservoir continuity: Unity Field, Sudan

E. B. Frolov and M. B. Smirnov — 189 — Unsaturated hydrocarbons in crude oils

Note

Ken B. Anderson — 209 — The nature and fate of natural resins in the geosphere—IV. Middle and Upper Cretaceous amber from the Taimyr Peninsula, Siberia—evidence for a new form of polylabdanoid of resinite and revision of the classification of Class I resinites

Number 3/4

SELECTED PAPERS FROM THE 3RD INTERNATIONAL MEETING OF THE ASSOCIATION OF AFRO-ASIAN PETROLEUM GEOCHEMISTS

iii — Editorial

John K. Volkman and R. B. Johns — v — Introduction

Fan Pu — vii — Opening Speech

Jürgen Rullkötter, Torren M. Peakman and H. Lo ten Haven — 215 — Early diagenesis of terrigenous triterpenoids and its implications for petroleum geochemistry

S. C. George, S. M. Llorca and P. J. Hamilton — 235 — An integrated analytical approach for determining the origin of solid bitumens in the McArthur Basin, northern Australia

Raj K. Singh, Robert Alexander and Robert I. Kagi — 249 — Identification and occurrence of norcadalenes and related compounds in crude oils and sediments

Tahira Fazeelat, Robert Alexander and Robert I. Kagi — 257 — Extended 8,14-secohopanes in some seep oils from Pakistan

David M. McKirdy, Roger E. Summons, Dianne Padley, Kym M. Serafini, Christopher J. Boreham and Heike I. M. Struckmeyer — 265 — Molecular fossils in coastal bitumens from southern Australia: signatures of precursor biota and source rock environments

J. W. Smith, D. Rigby, Luo Binjie, Song Zhiguang and Wang Yuxiao — 287 — The determination of the petroleum potentials of terrestrial source rocks

Imam B. Sosrowidjojo, Robert Alexander and Robert I. Kagi — 303 — The biomarker composition of some crude oils from Sumatra

K. Chandra, C. S. Mishra, U. Samanta, Anita Gupta and K. L. Mehrotra — 313 — Correlation of different maturity parameters in the Ahmedabad–Mehsana block of the Cambay basin

K. B. Kohli, N. J. Thomas, B. N. Prabhu and K. N. Misra — 323 — Simulated petroleum generation studies by hydrous pyrolysis of a Tertiary coal from Northern Cambay Basin of India

Qin Kuangzong, Yang Qiushui, Guo Shaohui, Lu Qinghua and Shu Wei — 333 — Chemical structure and hydrocarbon formation of the Huanxian brown coal, China

Shi Jiyang, Liu Dehan, Shi Jixi, Wang Benshan and Xiang Mingju — 343 — Evaluation of the petroleum source rock potential of samples from the Shichuan Basin, P.R. China

Mingcheng Li — 351 — Characteristics and quantitative modelling of natural gas migration in a clastic rock series

F. Mpanju and R. P. Philp — 359 — Organic geochemical characterization of bitumens, seeps, rock extracts and condensates from Tanzania

V. Banerjie, A. K. Mittal, K. Agarwal, A. K. Uniyal and K. Chandra — 373 — Carbon isotope geochemistry of petroleum-associated gases in Krishna–Godavari Basin, India

A. K. Garg and R. P. Philp — 383 — Pyrolysis–gas chromatography of asphaltenes/kerogens from source rocks of the Gandhar Field, Cambay Basin, India

J. David King, Jianqiang Yang and Fan Pu — 393 — Thermal history of the periphery of the Junggar Basin, Northwestern China

John K. Volkman, Stephanie M. Barrett and Graeme A. Dunstan — 407 — C_{25} and C_{30} highly branched isoprenoid alkenes in laboratory cultures of two marine diatoms

Jiang Shanchun, Teresa O'Leary, John K. Volkman, Zhang Huizhi, Jia Rongfen, Yu Suhua, Wang Yan, Luan Zuofeng, Sun Zuoqing and Jiang Ronghua — 415 — Origins and simulated thermal alteration of sterols and keto-alcohols in deep-sea marine sediments of the Okinawa Trough

I Announcements

V Forthcoming Papers

Number 5

François Gelin, Jan W. de Leeuw, Jaap S. Sinninghe Damsté, Sylvie Derenne, Claude Largeau and Pierre Metzger	423	The similarity of chemical structures of soluble aliphatic polyaldehyde and insoluble algaenan in the green microalga *Botryococcus braunii* race A as revealed by analytical pyrolysis
G. Klink, A. Buchs and F. O. Gülacar	437	Supercritical fluid extraction of fatty acids and sterols from plant tissues and sediments
C. Pettersson, J. Ephraim and B. Allard	443	On the composition and properties of humic substances isolated from deep groundwater and surface waters
E. Jørgensen, L. K. Sydnes and G. H. Isaksen	453	Oil analysis with respect to various 2- and 3-alkylated *cis*-bicyclo[3.3.0]octanes
Lung-Chuan Kuo	465	An experimental study of crude oil alteration in reservoir rocks by water washing
M. A. McCaffrey, B. R. T. Simoneit, F. R. Aquino Neto and J. M. Moldowan	481	Functionalized biological precursors of tricyclic terpanes: information from sulfur-bound biomarkers in a Permian Tasmanite
Joseph A. Curiale	489	High-resolution organic record of Bridge Creek deposition, northwest New Mexico
Neil Spooner, Brendan J. Keely and James R. Maxwell	509	Biologically mediated defunctionalization of chlorophyll in the aquatic environment—I. Senescence/decay of the diatom *Phaeodactylum tricornutum*
Eric Lichtfouse and Jürgen Rullkötter	517	Accelerated transformation of organic matter below the silica transition zone in immature sediments from the Japan Sea
Bernd R. T. Simoneit and Keith A. Kvenvolden	525	Comparison of ^{14}C ages of hydrothermal petroleums
Carim Armanios, Robert Alexander, Robert I. Kagi and Imam B. Sosrowidjojo	531	Fractionation of sedimentary higher-plant derived pentacyclic triterpanes using molecular sieves
N. Telnæs, G. H. Isaksen and A. G. Douglas	545	A geochemical investigation of samples from the Volgian Bazhenov Formation, Western Siberia, Russia
	559	Book Review

Number 6/7

COMPOUND-SPECIFIC ISOTOPE ANALYSIS IN BIOGEOCHEMISTRY AND PETROLEUM RESEARCH

Martin Schoell and John M. Hayes	V	Introduction
Margaret P. Ricci, Dawn A. Merritt, Katherine H. Freeman and J. M. Hayes	561	Acquisition and processing of data for isotope-ratio-monitoring mass spectrometry

Dawn A. Merritt, W. A. Brand and J. M. Hayes	573	Isotope-ratio-monitoring gas chromatography–mass spectrometry: methods for isotopic calibration
W. A. Brand, A. R. Tegtmeyer and A. Hilkert	585	Compound-specific isotope analysis: extending toward $^{15}N/^{14}N$ and $^{18}O/^{16}O$
Allen J. Bakel, Peggy H. Ostrom and Nathaniel E. Ostrom	595	Carbon isotopic analysis of individual *n*-alkanes: evaluation of accuracy and application to marine particulate organic material
J. A. Silfer, Y. Qian, S. A. Macko and M. H. Engel	603	Stable carbon isotope compositions of individual amino acid enantiomers in mollusc shell by GC/C/IRMS
T. A. Abrajano Jr, D. E. Murphy, J. Fang, P. Comet and J. M. Brooks	611	$^{13}C/^{12}C$ ratios in individual fatty acids of marine mytilids with and without bacterial symbionts
James W. Collister, Gareth Rieley, Benjamin Stern, Geoffrey Eglinton and Brian Fry	619	Compound-specific $\delta^{13}C$ analyses of leaf lipids from plants with differing carbon dioxide metabolisms
Katherine H. Freeman, Stuart G. Wakeham and J. M. Hayes	629	Predictive isotopic biogeochemistry: hydrocarbons from anoxic marine basins
James W. Collister, Eric Lichtfouse, Glenn Hieshima and J. M. Hayes	645	Partial resolution of sources of *n*-alkanes in the saline portion of the Parachute Creek Member, Green River Formation (Piceance Creek Basin, Colorado)
Tim E. Ruble, Allen J. Bakel and R. Paul Philp	661	Compound specific isotopic variability in Uinta Basin native bitumens: paleoenvironmental implications
M. Schoell, R. J. Hwang, R. M. K. Carlson and J. E. Welton	673	Carbon isotopic composition of individual biomarkers in gilsonites (Utah)
Christopher J. Boreham, Roger E. Summons, Zarko Roksandic, Lesley M. Dowling and Adrian C. Hutton	685	Chemical, molecular and isotopic differentiation of organic facies in the Tertiary lacustrine Duaringa oil shale deposit, Queensland, Australia
M. Schoell, B. R. T. Simoneit and T.-G. Wang	713	Organic geochemistry and coal petrology of Tertiary brown coal in the Zhoujing mine, Baise Basin, South China—4. Biomarker sources inferred from stable carbon isotope compositions of individual compounds
Timothy I. Eglinton	721	Carbon isotopic evidence for the origin of macromolecular aliphatic structures in kerogen
C. J. Clayton and M. Bjorøy	737	Effect of maturity on $^{13}C/^{12}C$ ratios of individual compounds in North Sea oils
A. Wilhelms, S. R. Larter and K. Hall	751	A comparative study of the stable carbon isotopic composition of crude oil alkanes and associated crude oil asphaltene pyrolysate alkanes

Malvin Bjorøy, Peter B. Hall and Rita P. Moe — 761 — Variation in the isotopic composition of single components in the C_4–C_{20} fraction of oils and condensates

S. A. Baylis, K. Hall and E. J. Jumeau — 777 — The analysis of the C_1–C_5 components of natural gas samples using gas chromatography–combustion–isotope ratio mass spectrometry

B. Mycke, K. Hall and P. Leplat — 787 — Carbon isotopic composition of individual hydrocarbons and associated gases evolved from micro-scale sealed vessel (MSSV) pyrolysis of high molecular weight organic material

R. Ishiwatari, M. Uzaki and K. Yamada — 801 — Carbon isotope composition of individual *n*-alkanes in recent sediments

V. P. O'Malley, T. A. Abrajano Jr and Jocelyn Hellou — 809 — Determination of the $^{13}C/^{12}C$ ratios of individual PAH from environmental samples: can PAH sources be apportioned?

General Paper

Neil Spooner, Gareth Rieley, James W. Collister, Mark Lander, Peter A. Cranwell and James R. Maxwell — 823 — Stable carbon isotopic correlation of individual biolipids in aquatic organisms and a lake bottom sediment

i — Announcement

v — Forthcoming papers

Number 8/9

III — Obituary

S. C. George and D. R. Jardine — 829 — Ketones in a Proterozoic dolerite sill

Assem O. Barakat, Torren M. Peakman and Jürgen Rullkötter — 841 — Isolation and structural characterization of 10-oxo-octadecanoic acid in some lacustrine sediments from the Nördlinger Ries (southern Germany)

Leroy Ellis, Robert Alexander and Robert I. Kagi — 849 — Separation of petroleum hydrocarbons using de-aluminated mordenite molecular sieve—II. Alkylnaphthalenes and alkylphenanthrenes

Graham A. Logan and Geoffrey Eglinton — 857 — Biogeochemistry of the Miocene lacustrine deposit, at Clarkia, northern Idaho, U.S.A.

Ronald W. T. Wilkins, Michael V. Ellacott, John R. Wilmshurst and Carol Buckingham — 871 — The suppression of inertinite reflectance

K. F. M. Thompson — 877 — A classification of petroleum on the basis of the ratio of sulfur to nitrogen

Olga V. Serebrennikova and Tamara K. Mozzhelina — 891 — Features of porphyrin compounds in Cambrian oil shales from Yakutiya, Siberia

J. C. del Rio, J. Garcia-Molla, F. J. Gonzalez-Vila and F. Martin — 897 — Composition and origin of the aliphatic extractable hydrocarbons in the Puertollano (Spain) oil shale

Lung-Chuan Kuo and G. Eric Michael 911 A multicomponent oil-cracking kinetics model for modeling preservation and composition of reservoired oils

Frances D. Hostettler and Keith A. Kvenvolden 927 Geochemical changes in crude oil spilled from the *Exxon Valdez* supertanker into Prince William Sound, Alaska

J. N. Robson and S. J. Rowland 937 Synthesis of polypodane (C_{30}) and structurally related C_{25} bicyclic hydrocarbons

Anne Eva Borgund and Tanja Barth 943 Generation of short-chain organic acids from crude oil by hydrous pyrolysis

Scott A. Stout and Jaap J. Boon 953 Structural characterization of the organic polymers comprising a lignite's matrix and megafossils

Anil Pande, A. K. Uniyal and Kuldeep Chandra 971 Genetic correlation of biodegraded crude oils from Lower Assam, India using biomarker compositions

Short Communications

Régis Pelet 979 Comments on the paper "The effects of the mineral matrix on the determination of kinetic parameters using modified Rock–Eval pyrolysis" by H. Dembicki Jr, *Org. Geochem.*, 18, 531–539 (1992)

H. Dembicki Jr 982 Reply to comments by R. Pelet on the paper "The effects of the mineral matrix on the determination of kinetic parameters using modified Rock–Eval pyrolysis" by H. Dembicki Jr, *Org. Geochem.*, 18, 531–539 (1992)

Alan K. Burnham 985 Comments on "The effects of the mineral matrix on the determination of kinetic parameters using modified Rock–Eval pyrolysis" by H. Dembicki Jr, and the resulting comment by R. Pelet
